

**Dr Joseph Powell**  
**Queensland Brain Institute**  
**The University of Queensland**

**Biography:**

Dr Joseph Powell is a team leader in the Centre for Neurogenetics and Statistical Genomics based at the Queensland Brain Institute. He received his PhD from the University of Edinburgh in 2010 followed by two years working as a post-doctoral researcher at QIMR Berghofer.

Joseph has worked on a range of research projects involving methods, theory and application around the nexus of quantitative, statistical and population genetics. This has provided a good foundation for his more recent work investigating the genetic architecture regulating gene expression and its role within a systems genetics framework.
